

» Transportation tank LD-T (horizontal)

If you prefer to transport horizontally, no problem! The transportation tank LD-T offers all the advantages of its upright companion. It has a safely lockable lid with vent neck and a bottom outlet that allows for the tank's complete draining.

The tank is lying on a stable PE-base made by Speidel and is accessible from four sides by forklift. The plastic base not only makes the LD-T absolutely stable. It also helps to protect the tank from jostles and bumps. This way you will be able to enjoy your tank for many years to come.
